1. All great teachers give constructive criticisms as they grade the students' work, illustrate difficult concepts through daily life examples, care to go the extra mile to help students understand the materials and answer questions upon questions.
 2. Prof. Morrow does all of the above and more 😊
- ∴ Prof. Morrow is a great teacher!

I THINK HE IS A GOOD PROFESSOR.
HE TRIES HARD TO HELP US
UNDERSTAND THE MATERIAL.

I have a good shot at an A, which I
would not have had without your
help. I'd be closer to a C.
Thanks

Mr. Morrow is a great teacher that really helped to clarify complex concepts. My only problem was that he didn't teach the whole class (lecture & discussion).

Mr. Morrow is possibly the most intelligent, well-spoken, and patient professor I have ever had. As the discussion group leader for the course, he compensated for the confusing, aggravating, and antiquated lectures.

Thank you, Mr. Morrow. You've made this course a positive experience singlehandedly.

I believe it is vital to note that instructor Morrow interpreted convoluted material into subject matter that was readily available to grasp and comprehend. Instructor Morrow made sure he was available and that all of the material was clear before moving on. Following a seemingly complex lecture in which the vast majority of students would leave stupefied, instructor Morrow calmly explained everything in simple, albeit engaging, examples that I felt aided me incredibly during exams. Instructor Morrow not only made the course understandable but more importantly entertaining. Rather than expose the class to archaic examples, such as those provided by Professor Freeman, Instructor Morrow chose examples that were contemporary and simple, and vividly demonstrated the point in question. He was truly an excellent instructor and, without a doubt, one we would have benefited this class.
