Dude, you rock! Your handwriting is clear (unlike most professors!) and your voice is clear too. You really know the material well.

You almost scared me into not taking one of the best classes ever in the beginning of the semester. Don't do that again.

In many ways David's discussion class is much more helpful than the main lecture class.

One of the best I've had at Hunter so far. Very helpful, reaches out to his students, and very funny.

Awesome!

He is the best T.A. EVER! He was so funny and that really helped everyone engage in otherwise boring content. He did a GREAT job of reinterpreting the ~~confusing~~ lectures and was so helpful.

GREAT
