One of the best professors I've had during my entire time at Hunter College. A true asset to any student.

You're a funny man Professor Morrow and
people commit completely morose fallacies;
this is an entertaining class. The comedy helps.

Prof. Morrow made a 8:10 am
class interesting and something
I didn't want to miss!

The course content was excellent
and all topics ^{and concepts} were clearly
explained.

This course was a phenomenal experience and even though it was at 8:10, it was definitely worth waking up early for. He really knows what he is talking about and knows how to drive the points to the students. His use of examples was incredible; I have never seen a professor use "The Incredibles" as an educational device.

Thank You for a great class!

One of the best courses I've
ever had.
