Professor Morrow is one of the best instructors I have ever had.

The course is challenging and fun. The pace is a bit fast, but this may be a function of the compressed summer schedule. (There is no question that we are covering the same amount of work that would be in a typical semester).

Professor Morrow is very approachable and gives helpful feedback on work submitted.

I took this class because I was considering changing my major and this class convinced me. Professor Morrow's enthusiasm & fairness are great for an evening class and really kept me engaged. I wish my school had more professors like him. He creates an atmosphere that promotes intelligent thought in a way that is often overlooked in traditional (structured) schooling and shows real concern for students. I am glad I had the opportunity to take this class.
